

SCEditor пользовательские команды

Чтобы добавить команду на панель инструментов, используйте следующую \$.sceditor.command.set функцию:

test.js

```
$(function() {
$.sceditor.command.set("headers", {
    exec: function(caller) {
        var editor = this,
            $content = $("<div />");

        for (var i=1; i<= 6; i++) {
            $(
                '<a class="sceditor-header-option" href="#">' +
                '<h' + i + '>Heading ' + i + '</h' + i + '>' +
                '</a>'
            )
                .data('headersize', i)
                .click(function (e) {
                    editor.execCommand("formatblock", "<h" +
$(this).data('headersize') + ">");
                    editor.closeDropDown(true);

                    e.preventDefault();
                })
                .appendTo($content);
        }

        editor.createDropDown(caller, "header-picker",
$content.get(0));
    },
    tooltip: "Format Headers"
});
```

Добавьте команды CSS:

style.css

```
.sceditor-button-headers div { background:
url("https://d33wubrfki0l68.cloudfront.net/31586b20f376f87c81414430a7a1
f70582486856/de066/misc/headers-button.png"); }
.sceditor-header-option {
    display: block;
    cursor: pointer;
    font-size: 14px;
    text-decoration: none;
```

```
        color: #222;
    }
    .sceditor-header-option h1,
    .sceditor-header-option h2,
    .sceditor-header-option h3,
    .sceditor-header-option h4,
    .sceditor-header-option h5,
    .sceditor-header-option h6 {
        border: 0;
        margin: 0;
        padding: .25em;
    }
    .sceditor-header-option:hover { background: #eee; }
```

Затем, если вы используете плагин BBCode, добавьте команды BBCode, используя следующую `$.formats.bbcode.set` функцию:

`script.js`

```
$.sceditor.formats.bbcode
.set("h1", { tags: { h1: null }, format: "[h1]{0}[/h1]", html:
"<h1>{0}</h1>", isInline: false })
.set("h2", { tags: { h2: null }, format: "[h2]{0}[/h2]", html:
"<h2>{0}</h2>", isInline: false })
.set("h3", { tags: { h3: null }, format: "[h3]{0}[/h3]", html:
"<h3>{0}</h3>", isInline: false })
.set("h4", { tags: { h4: null }, format: "[h4]{0}[/h4]", html:
"<h4>{0}</h4>", isInline: false })
.set("h5", { tags: { h5: null }, format: "[h5]{0}[/h5]", html:
"<h5>{0}</h5>", isInline: false })
.set("h6", { tags: { h6: null }, format: "[h6]{0}[/h6]", html:
"<h6>{0}</h6>", isInline: false });
```

Наконец, добавьте команду на панель инструментов редактора:

`script.js`

```
$("#demo-cust-cmd").sceditor({
format: 'bbcode',
toolbar: "headers|bold,italic,underline|source",
style:
"https://cdn.jsdelivr.net/npm/sceditor@latest/minified/themes/content/default.min.css",
emojiconsRoot: "/"
});
```
