

CMS

Joomla

Joomla! (произносится джумла) — система управления содержимым (CMS), написанная на языках PHP и JavaScript, использующая в качестве хранилища базы данных СУБД MySQL или другие стандартные промышленные реляционные СУБД. Является свободным программным обеспечением, распространяемым под лицензией GNU GPL.

DokuWiki

DokuWiki (Докувики) — вики-движок, который может быть использован для создания документации. Автор проекта — Андреас Гор (Andreas Gohr). В отличие от многих других движков, DokuWiki использует для хранения страниц текстовые файлы, таким образом

единственным требованием является поддержка хостингом PHP (последний релиз требует PHP 7.4 или новее). Код движка распространяется на условиях GNU General Public License версии 2.

The screenshot shows the DokuWiki homepage. At the top, there's a navigation bar with links: Download, Wiki, Forum, IRC, Bugs, Translate, Git, XRef, and a search bar. Below this, the DokuWiki logo is displayed with the tagline "It's better when it's simple". The main content area is titled "DokuWiki" and describes it as a simple to use and highly versatile Open Source wiki software. It highlights features like clean and readable syntax, ease of maintenance, backup and integration, built-in access controls, and authentication connectors. A "Get started" button with a download icon is present. The page is divided into several sections: "Why DokuWiki?" (listing benefits like easy installation, low system requirements, built-in access control lists, etc.), "Use Cases" (listing applications like corporate knowledge base, private notebook, etc.), "Customizing DokuWiki" (mentioning support for customization on all levels), and "Our Community" (stating that a part of OpenSource is giving back to the community). A sidebar on the left contains links for "Learn about DokuWiki" (Features & reviews, Installation guide, User manual & syntax, Release notes, FAQ), "Advanced Use" (Extensions, Development manual), "Corporate Use" (Get support, Donations), and "Our Community" (Get involved, User forum, Newsletter, Development mailinglist). It also includes social media links for Facebook and Twitter.
