

Журнал изменений

Эта статья содержит обзор изменений в официальных релизах «[ДокуВики](#)». Здесь упомянуты только крупнейшие изменения. Полный и детальный журнал всех изменений доступен на «[ГитХабе](#)»

Журнал изменений более старых, чем перечисленные здесь, релизов доступен в статье «[Предыдущие версии](#)» (англ.). Разработчики плагинов и шаблонов должны прочитать и подписаться на [подробный журнал изменений](#) (англ.)

Здесь есть информация относительно тонкостей [обновления](#)

Изменения, отмеченные знаком , требуют внимания при обновлении!

Upcoming Release “Greebo”

- This release requires PHP 5.6 at least!
- PHP 7.2 Support and improvements for PHP 7.3 support
- New form on search page with more search tools  Plugins which modified that page may need adjustments, e.g. [tagging](#) Plugin
 - ability to filter and sort results by time! ☐
- Sending now a `manifest.json` to let the user add DokuWiki to the homescreen
- Re-factored section edit.  Plugins which insert own [section edit buttons](#) need adjustments, e.g. [wrap](#) Plugin
- updated LESS compiler  [Template](#) authors may experience some incompatibilities
- new Action Dispatcher  Plugin authors handling [ACTION_ACT_PREPROCESS](#) may encounter slight differences
- new [Command Line Plugins](#)
- new [Menu system](#)  template authors may want to integrate them (see [Menu](#))
- improved features in `bin/wantedpage.php` CLI
- better cursor handling when inserting multiple images from media popup

Release 2017-02-19e “Frusterick Manners”

- new Admin screen with plugins being able to add their own icons  3rd party templates need adjustments
- jQuery 3 (IE Support for versions <9 dropped)
-  some plugins may need an update.

- **Gallery**: Make sure to update the gallery plugin before you upgrade DokuWiki. Versions before 2016-12-22 render all pages in Frusterick Manners virtually unusable. This includes the login and the admin forms. (Rescue manoeuvre if you happened to fall into the trap: Use regular file tools to move the folder '\$DOKUWIKIROOT/lib/plugins/gallery' out of the way.)
- **ODT**: Versions before 2016-09-10 do not supply the file 'inc/ZipLib.class.php' which is required in Frusterick Manners.
- better cache management and CDN support for jQuery
- PHP 7.1 support and PHP 7.0 bugfixes
- improvements to the internal Form mechanism
- File usage list in media manager
- Various improvements, language updates and bug fixes
-  XMLRPC is only available for PHP 5.4 and higher due to  [usage of certain PHP syntax](#)
